BOOK SUGGESTIONS

FOR THE PUPILS OF THE CITY SCHOOLS, :: :: :: :: :: DURHAM, N. C.

"A library is not a luxury, but one of the necessaries of life."

EXPLANATORY

The teachers of the city schools are often asked to suggest books suitable for children to read. With this in view we have selected with some care the following list of books any one of which, we believe, is worthy of place in any good library. The list is not intended to be exhaustive, but only suggestive; nor is the classification intended to be anything more than suggestive. Almost any piece of good literature might well be placed in any one of four or five grades. We present this list to the patrons of the city schools and trust that it may be of some service to the parents in selecting and directing the reading of their children; and to the children in helping to stimulate their interest in good reading, and in leading them to begin early to gather around them, as their own, a collection of good books.

These books may be ordered from the publishers or bought at the Durham Book Store at publisher's prices.

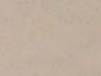

"He cometh unto you with a tale which holdeth children from play, and old men from the chimney-corner."
